IT 226 Group Evaluation Form
Project 3

Please answer the following questions about your group. <u>You must fill out this form as a group, and every group member must agree to these answers. Only one form per group is expected.</u>

Group members:

1. Working on the project:
    a. How many hours would you say you worked (discussed, rough drafts, deliverable, etc.) on this project, as a group (all were present, either physically or electronically):

    ## 5 hours total (virtual meetings)

    b. The group must clearly assign responsibilities to each group member. Please briefly mention the responsibilities of each group member.

Group member name	Responsibility	Contributed to which deliverable (source code file, report section, etc.)
Ross Payne	● saving/exporting student data ● tracking student count	GradebookUI (.h and .cpp) Gradebook(.h and .cpp)
Maribel Arellano	● Complete Entire User Interface: ● handle input ● check for valid input ● add .csv file extension when necessary ● perform user's request by calling functions from Gradebook ● give yourself action feedback	source code files: GradebookUI (.h and .cpp files) Gradebook (.h and .cpp files) Makefile
Cameron Steffen	Parsing CSV files The Gradebook class which structures the data	Gradebook.h/.cpp GradebookUI.h/.cpp Makefile

c. Which documents of the project were shared using Git?

All documents were shared on GitHub and latest versioning is up to date on team local and remote repositories.

d. Which documents of the project were shared using something other than Git? Why did you use this method?

Group Evaluation was live-edited and completed on Google Drive to facilitate prompt completion and consensus to submit.
